(Intro)

## Verse 1:

The sun appeared as morning came  
All hope restored within three days  
The crown of thorns no longer on  
You humbly came and took our place

## Pre-Chorus:

In you the stone is rolled away  
In you the stone is rolled away

## Chorus:

The victory has come  
You conquered death and we will dance  
To the beat of heavens drums  
In freedom, freedom, we will sing your praise  
In freedom, freedom, we will sing your praise

## Verse 2:

Now Christ is found to show His face  
Up from the tomb and vacant grave  
Come celebrate, death is undone  
There's power in the risen one

## Pre-Chorus:

In you the stone is rolled away  
In you the stone is rolled away

## Chorus:

The victory has come  
You conquered death and we will dance  
To the beat of heavens drums  
In freedom, freedom, we will sing your praise  
In freedom, freedom, we will sing your praise

## Bridge:

The son has set us free, now we will forever sing  
The son has set us free, now we will forever sing  
The son has set us free, now we will forever sing  
The son has set us free, now we will forever sing

## Chorus:

The victory has come  
You conquered death and we will dance  
To the beat of heavens drums  
In freedom, freedom, we will sing you praise  
The victory has come  
You conquered death and we will dance  
To the beat of heavens drums  
In freedom, freedom, we will sing you praise  
In freedom, freedom, we will sing you praise  
In freedom, freedom, we will sing you praise
